

# FILO™ Spun

## Cartridge Filters

The FILO™ Spun cartridge filters are a range of nominal rated depth liquid filters (polypropylene).

Rating from 1 to 50 µm.

### Features & Benefits

- High flow rates
- Low pressure loss
- High dirt holding capacity
- Long life
- Fast rinse up to 18 MΩ
- Several lengths available: 9" 3/4 ; 20" ; 30" ; 40"
- FDA approved

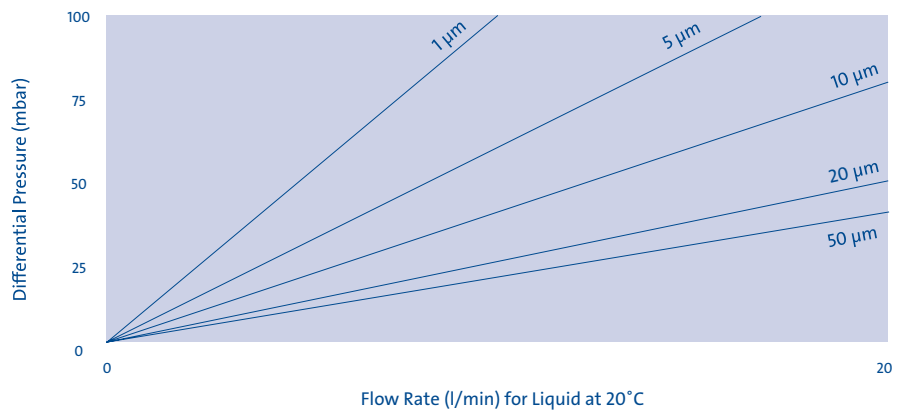

### Applications

- High Purity Water

### Related Services

Local after-sales service and support teams offer preventative and corrective maintenance programs to ensure the long-term, efficient operation of installed plant.

### Performance

## Specifications

Material Specifications	
Filtration Media	Polypropylene
End Caps	Polypropylene
Recommended Operating Conditions	
Max. Temperature	65°C (150°F)
Max. Differential Pressure	4 bar @ 20°C (68°F)
Recommended changeout Differential pressure	2 bar (30 psid)
Dimensions	
Outside Diameter	2.5"
Inside Diameter	1.1"
